# Scientology: The Player's Guide

Unlocking the World's  
Most Secretive Religion.

Hollywood's biggest stars (like Tom Cruise and John Travolta) pay hundreds of thousands of dollars to ascend its ranks. This is the confidential cheat sheet to what they actually believe.

# The Foundation

Founded by prolific sci-fi writer L. Ron Hubbard.

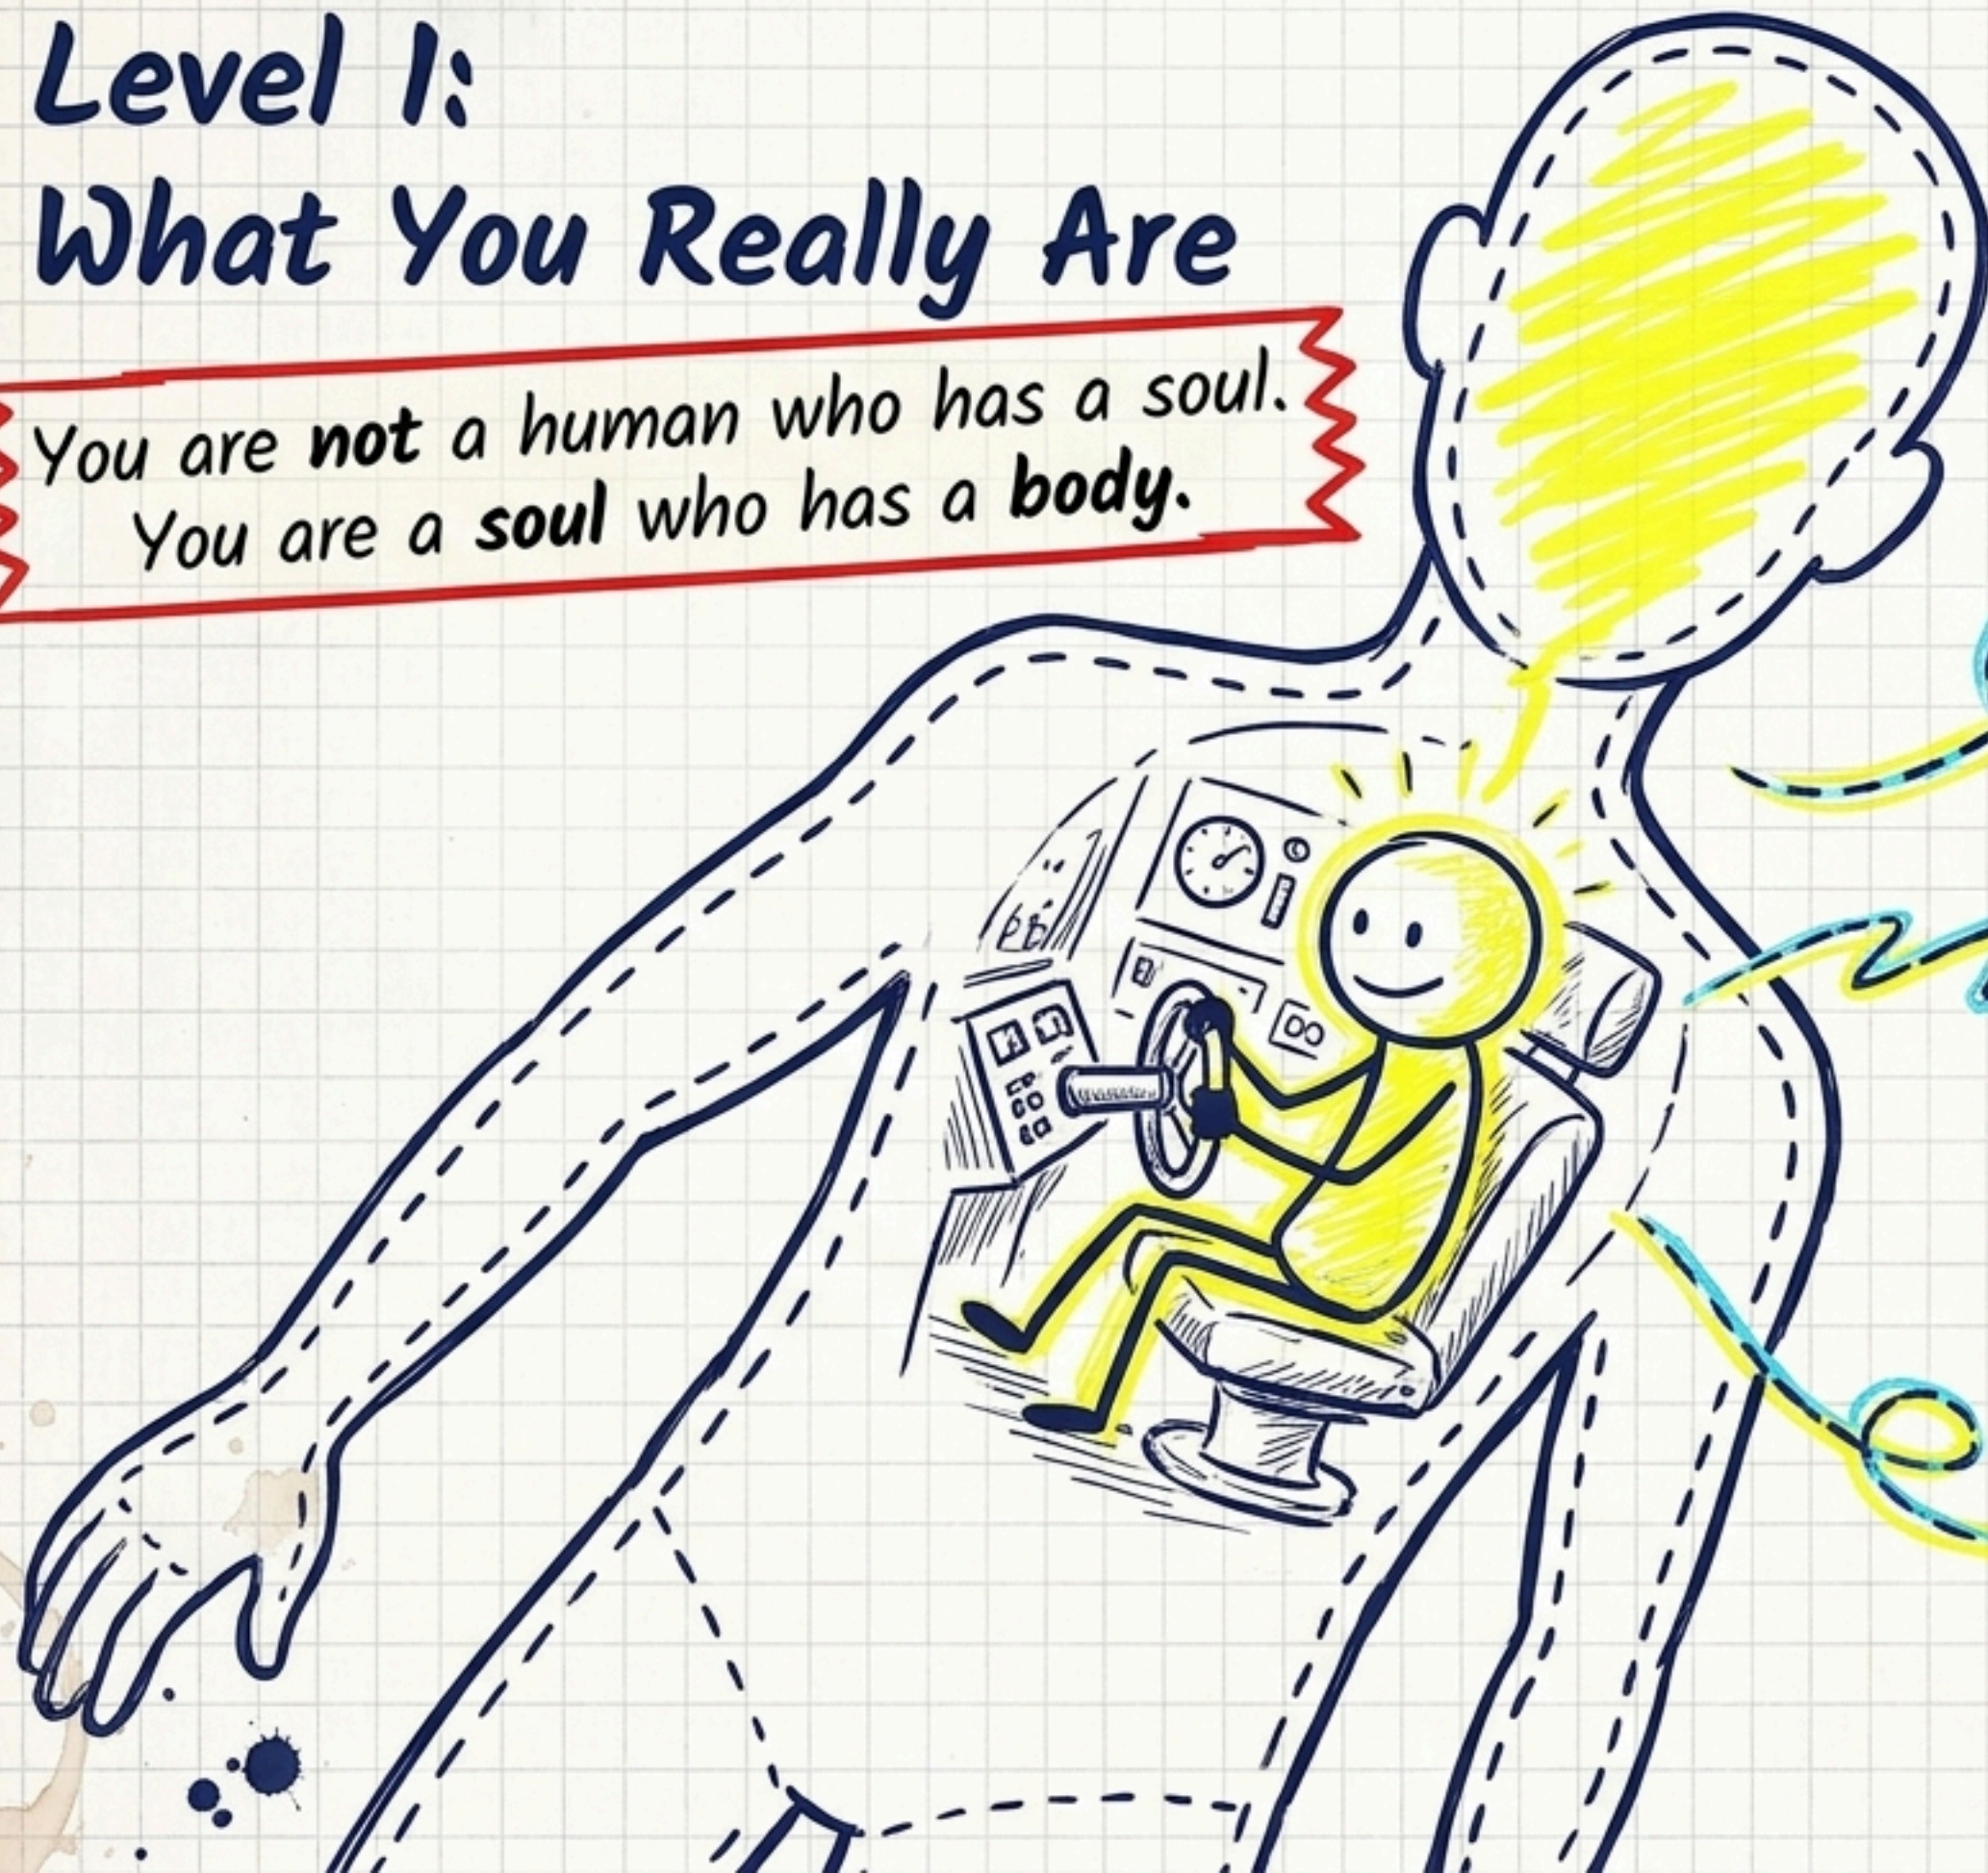

Scientology is defined as the study and handling of the spirit in relationship to itself, others and all of life.

**CONFIDENTIAL**

# Level 1: What You Really Are

You are **not** a human who has a soul.  
You are a **soul** who has a **body**.

**The Thetan:**  
From the Greek letter theta  
(the source of life).

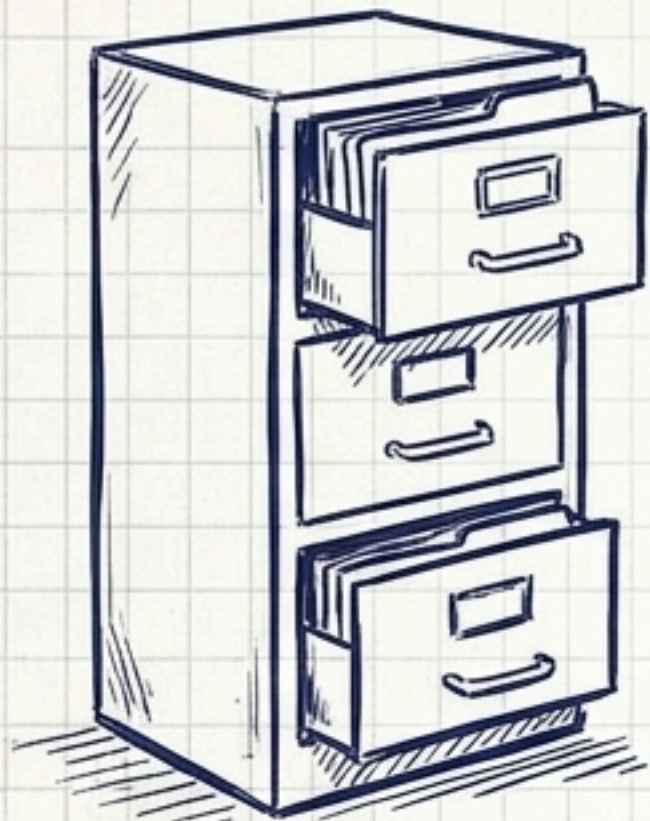

**Immortal:** Has lived  
across trillions of years  
and multiple planets.

**Basically Good:** Trying to  
survive through an infinite  
cycle of reincarnation.

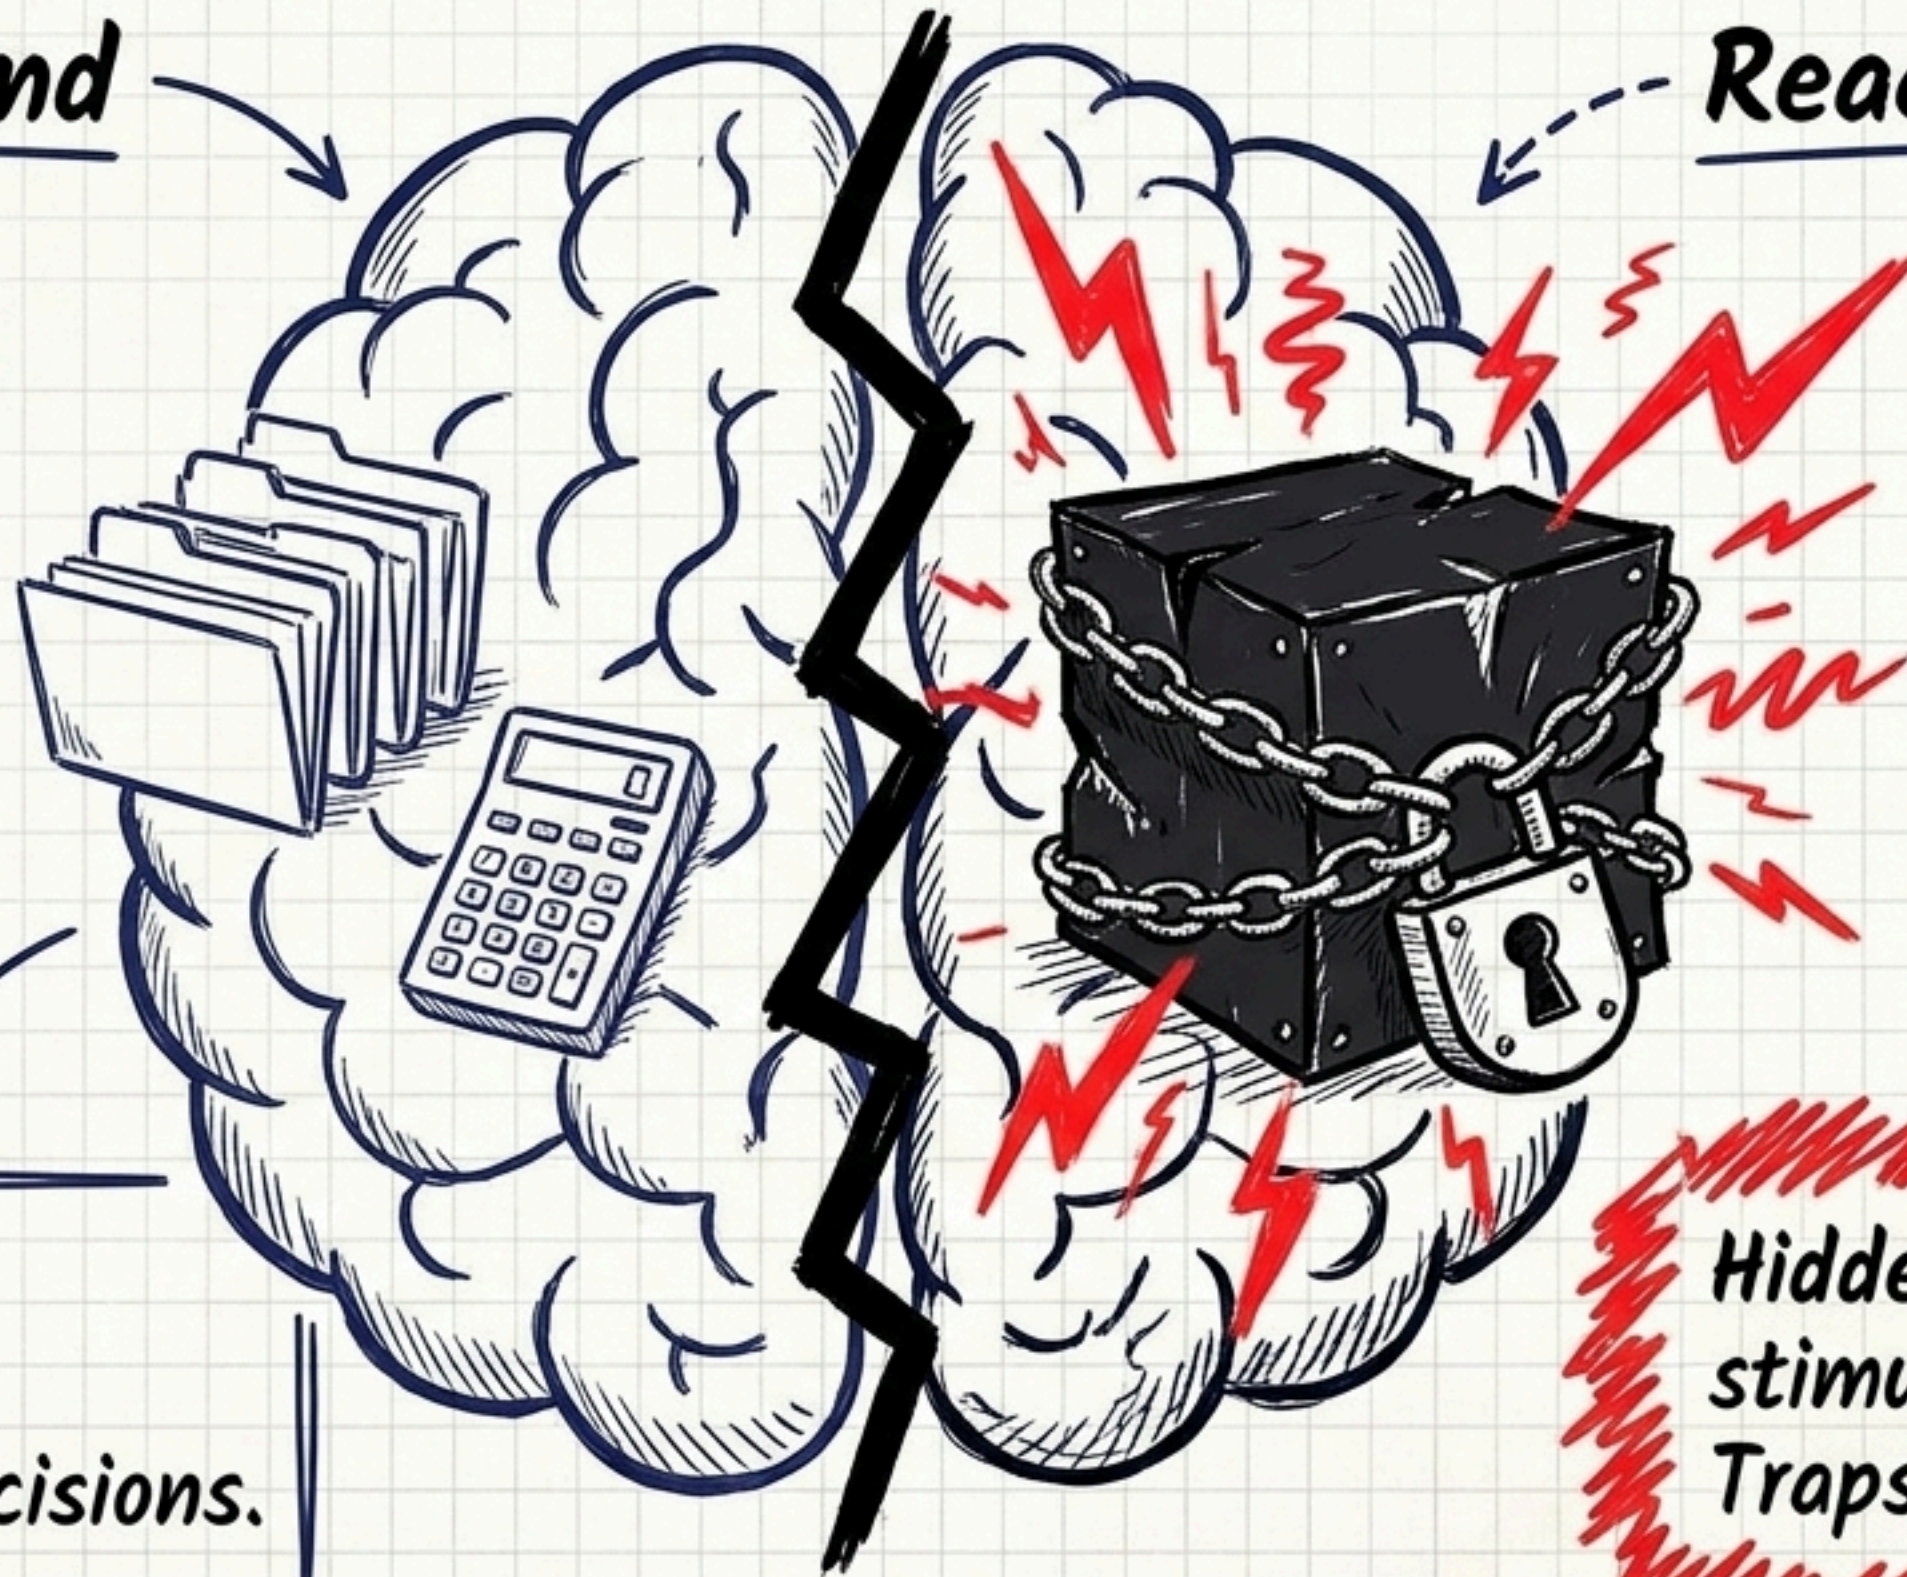

# The Core Problem: The Two Minds

Analytical Mind

Thinks logically.  
Solves problems.  
Makes rational decisions.

Reactive Mind

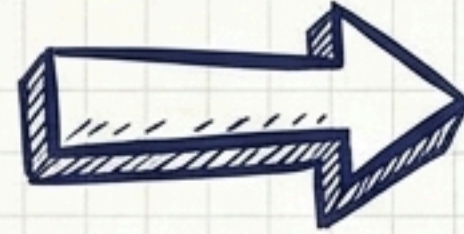

Hidden. Operates on  
stimulus-response.  
Traps the Thetan.

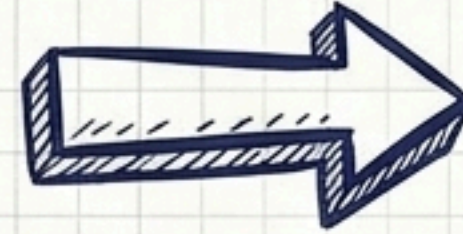

# The Glitch in the System: *Engrams*

Trauma Occurs

**The Engram**  
(A complete recording  
of the trauma)

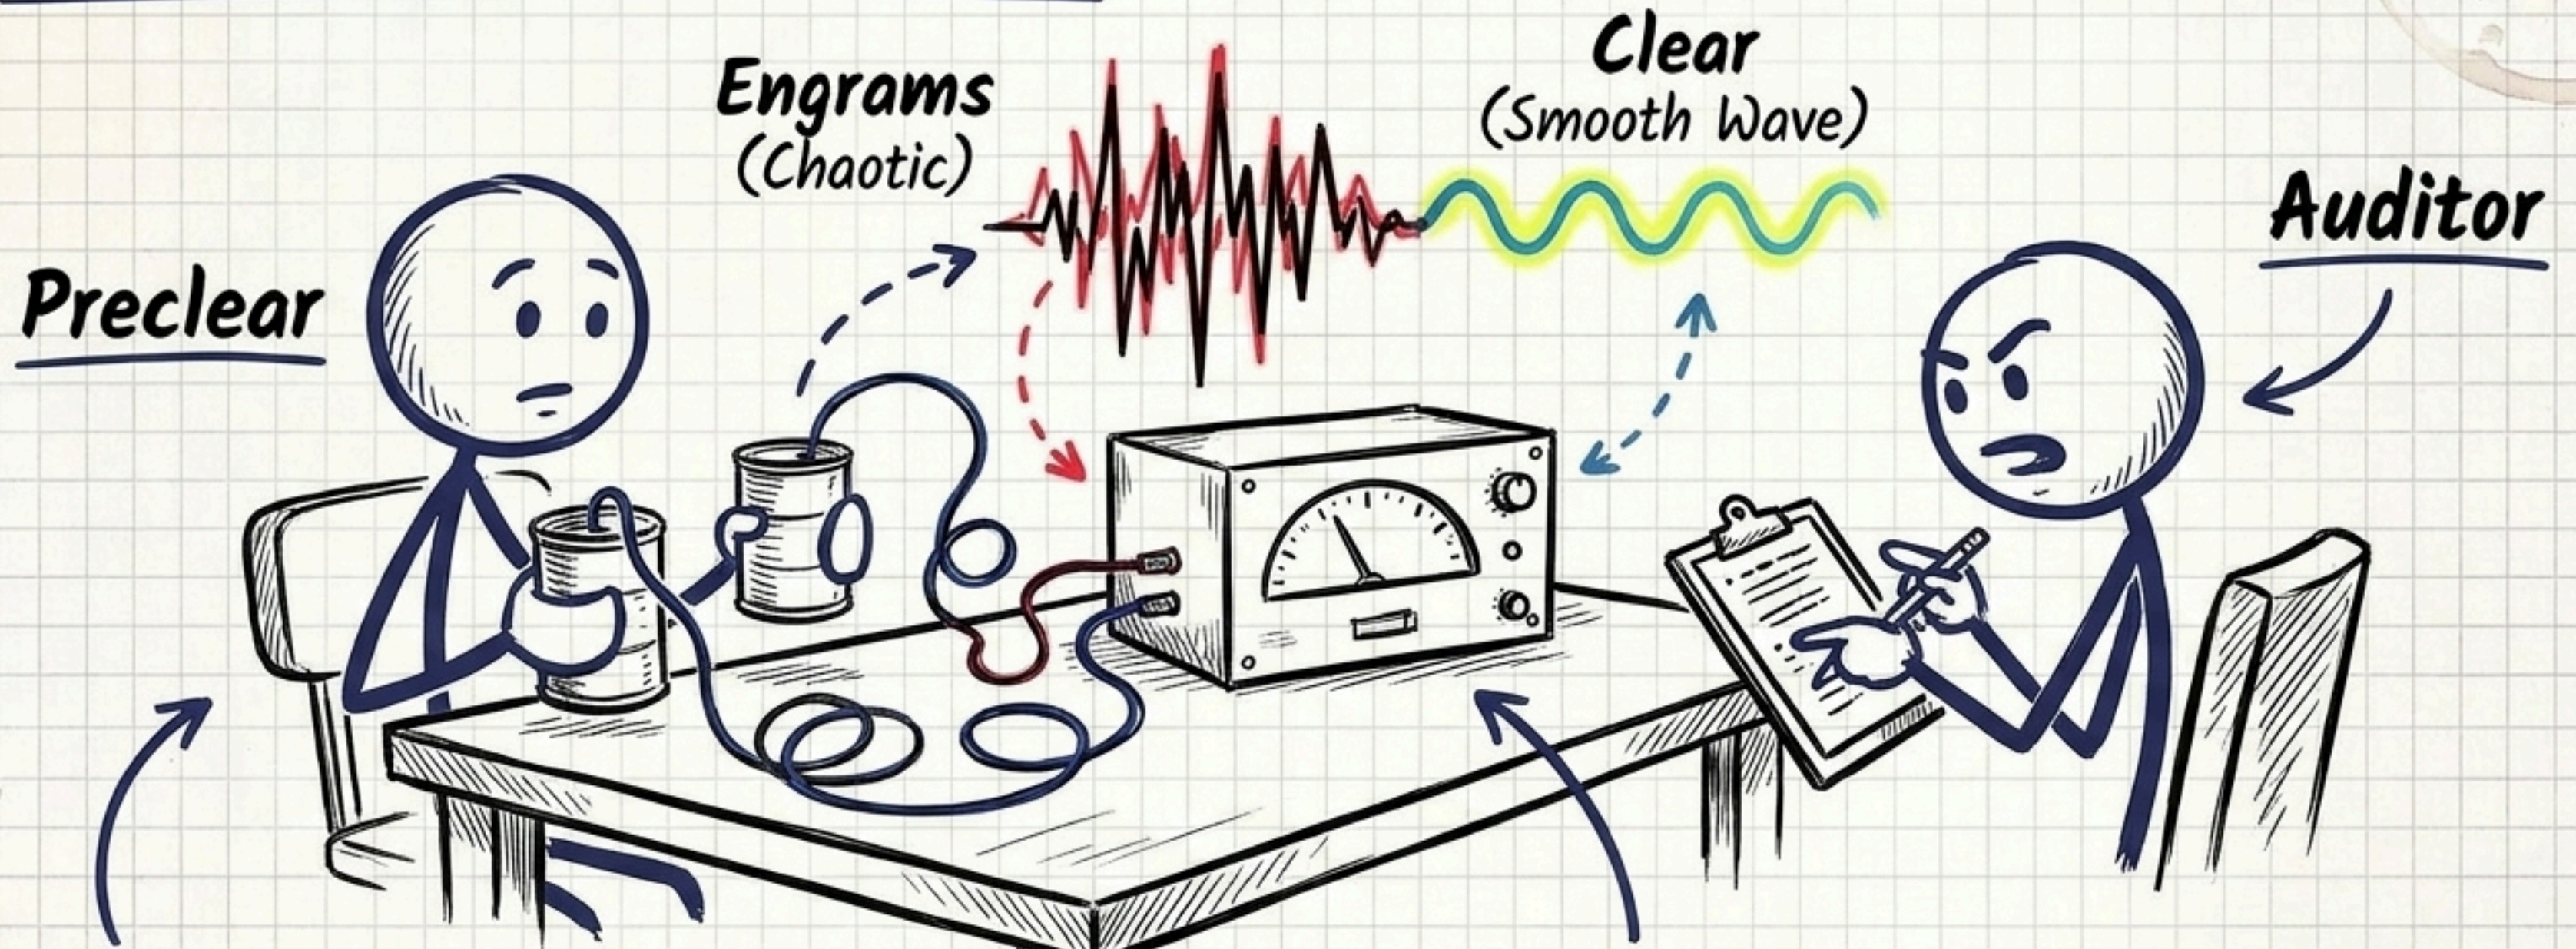

Stored in the  
Reactive Mind

When restimulated by similar situations in the present, Engrams trigger irrational emotional responses, psychosomatic illnesses, and unreasonable fears.

# The Solution: Auditing

**Auditor:** Asks specific questions to "run" the engram to the surface and discharge it.

**E-Meter (Electropsychometer):** Measures electrical resistance. Critics call it a crude skin response meter; Scientologists believe it reads the "carrier wave" of the Thetan.

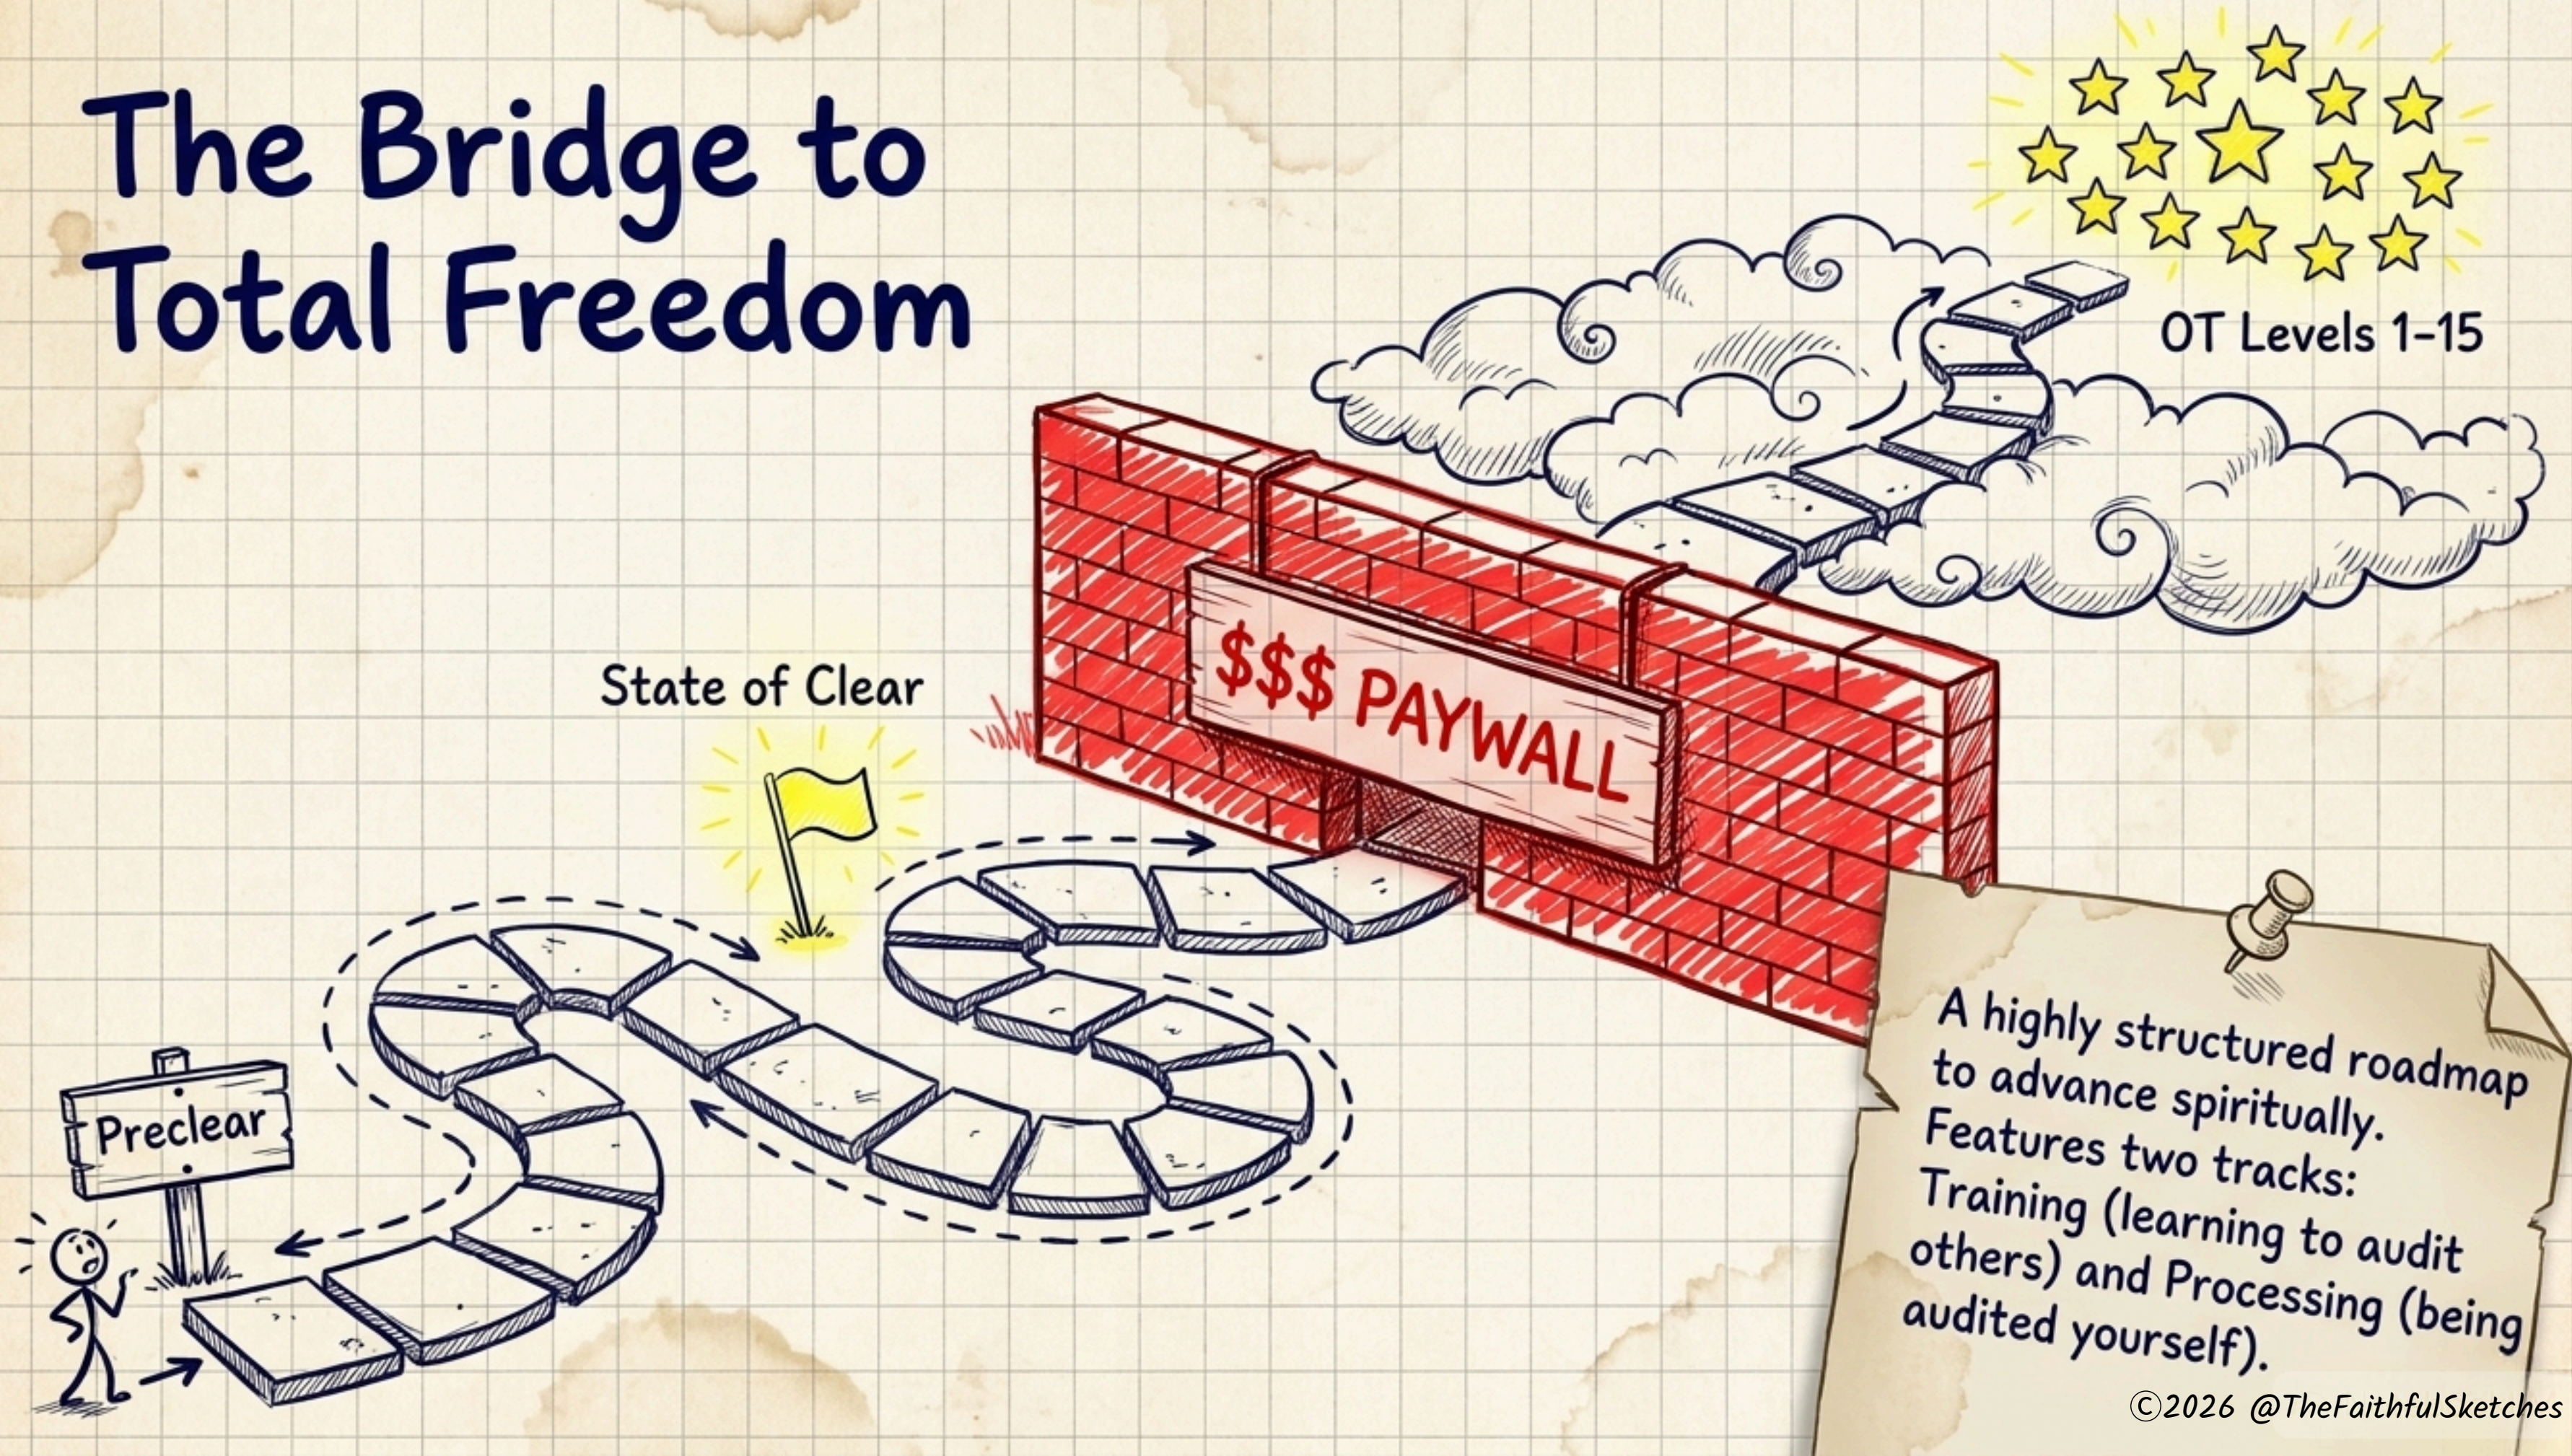

## Achievement Unlocked: **CLEAR**

A "Clear" is a being who no longer has a reactive mind.

- ☒ Freed from the influence of engrams.
- ☒ "At cause over" (in control of) their own mental energy and thoughts.

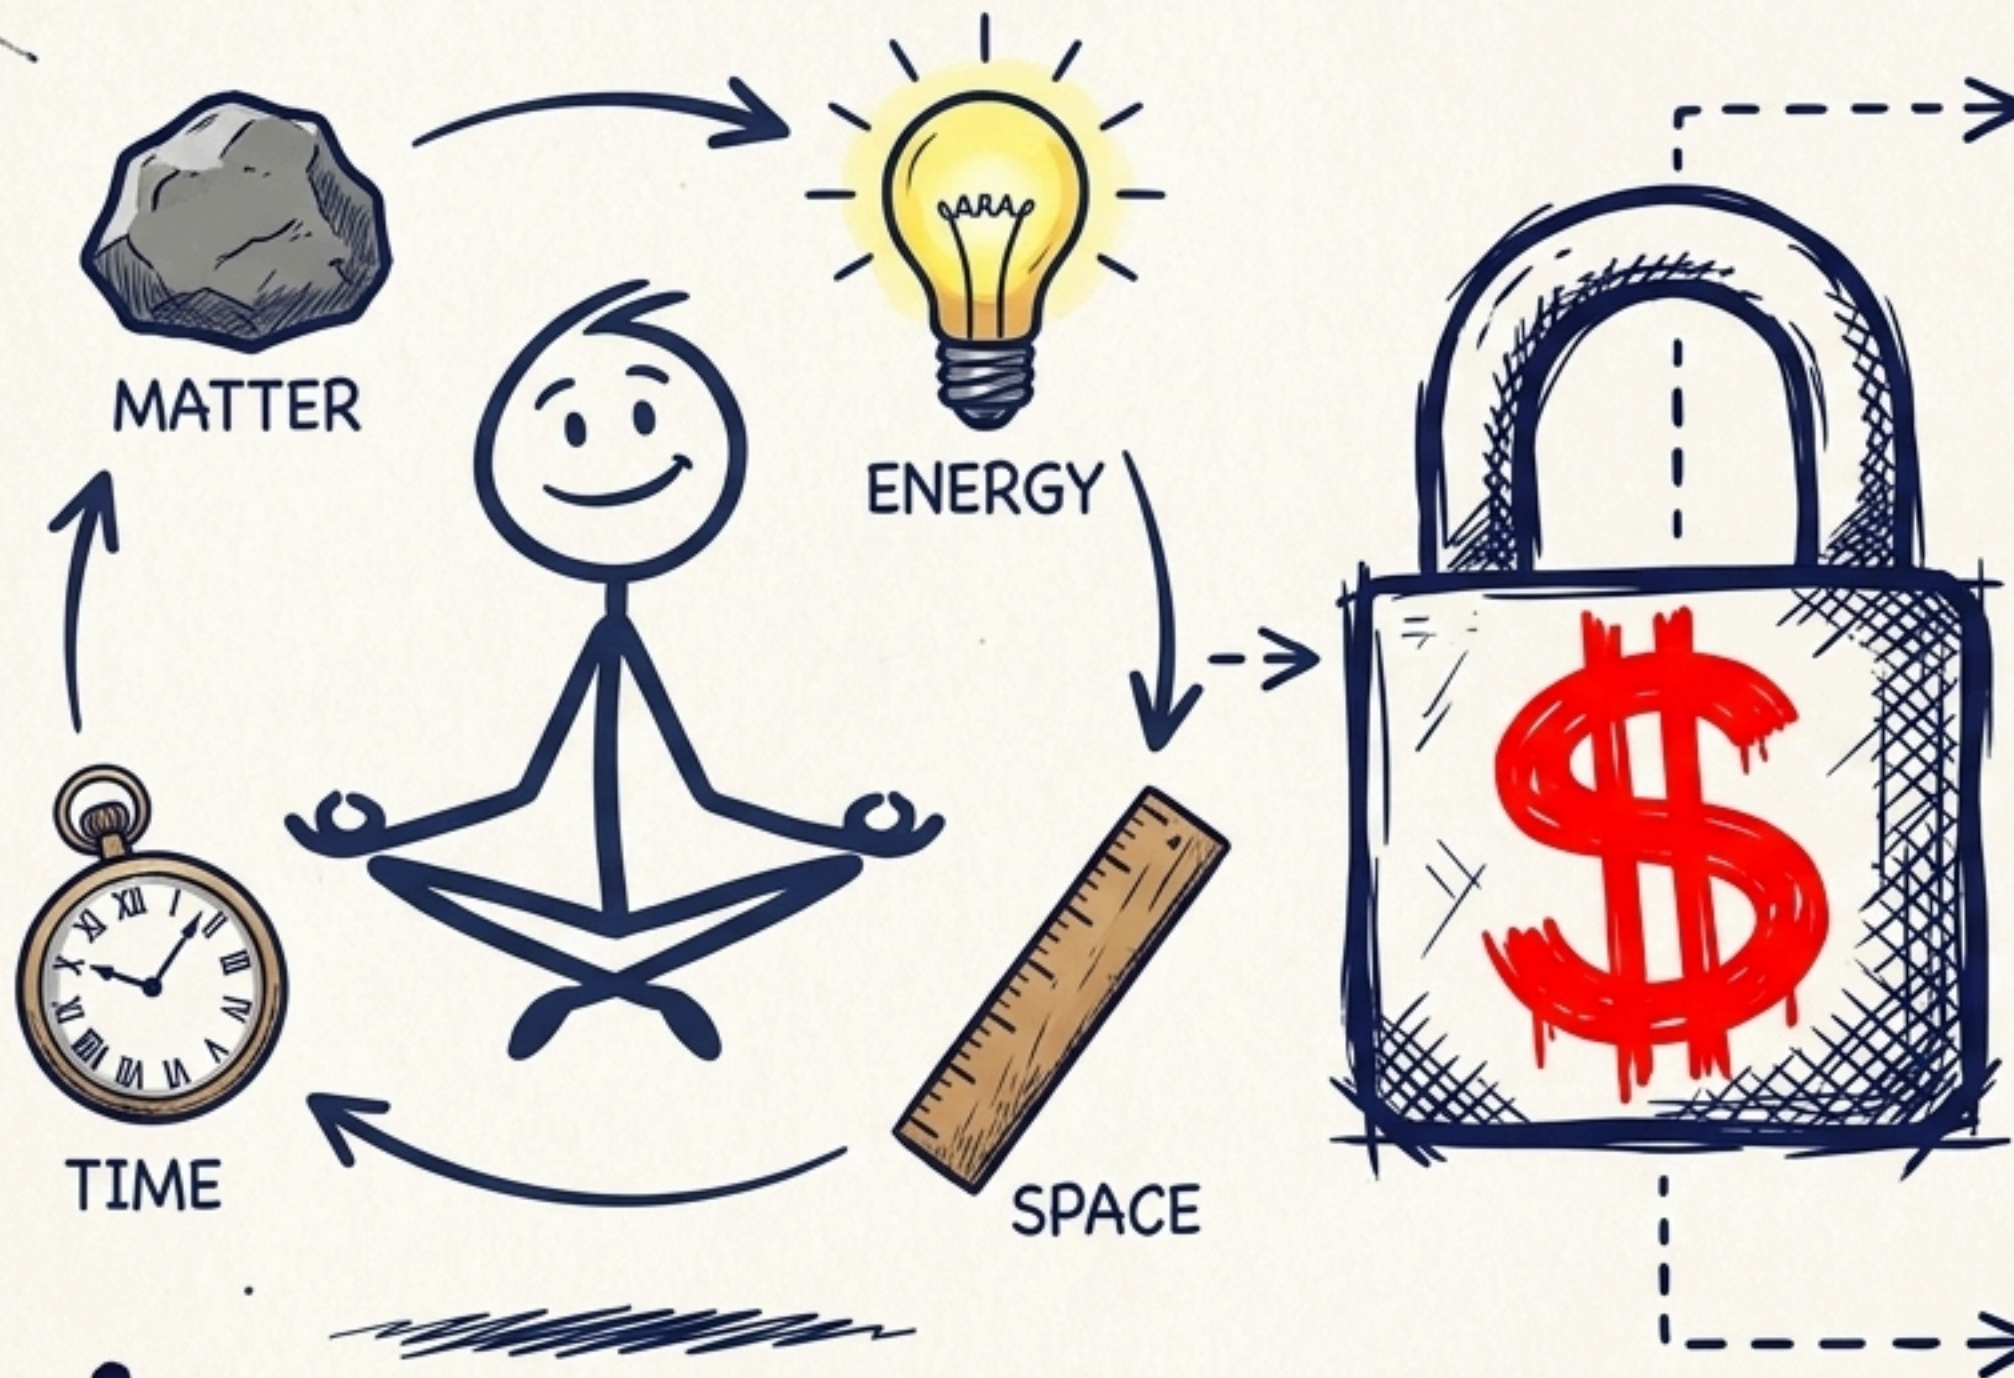

# The Bridge to Total Freedom

# The Paywall to Godhood

Above 'Clear' are the Operating Thetan (OT) levels. OTs are taught they can achieve a state of complete spiritual freedom, becoming a willing and knowing cause over life, thought, matter, energy, space and time (MEST).

The Catch: The levels are strictly confidential. You only learn the beliefs after you pay thousands of dollars to reach them.

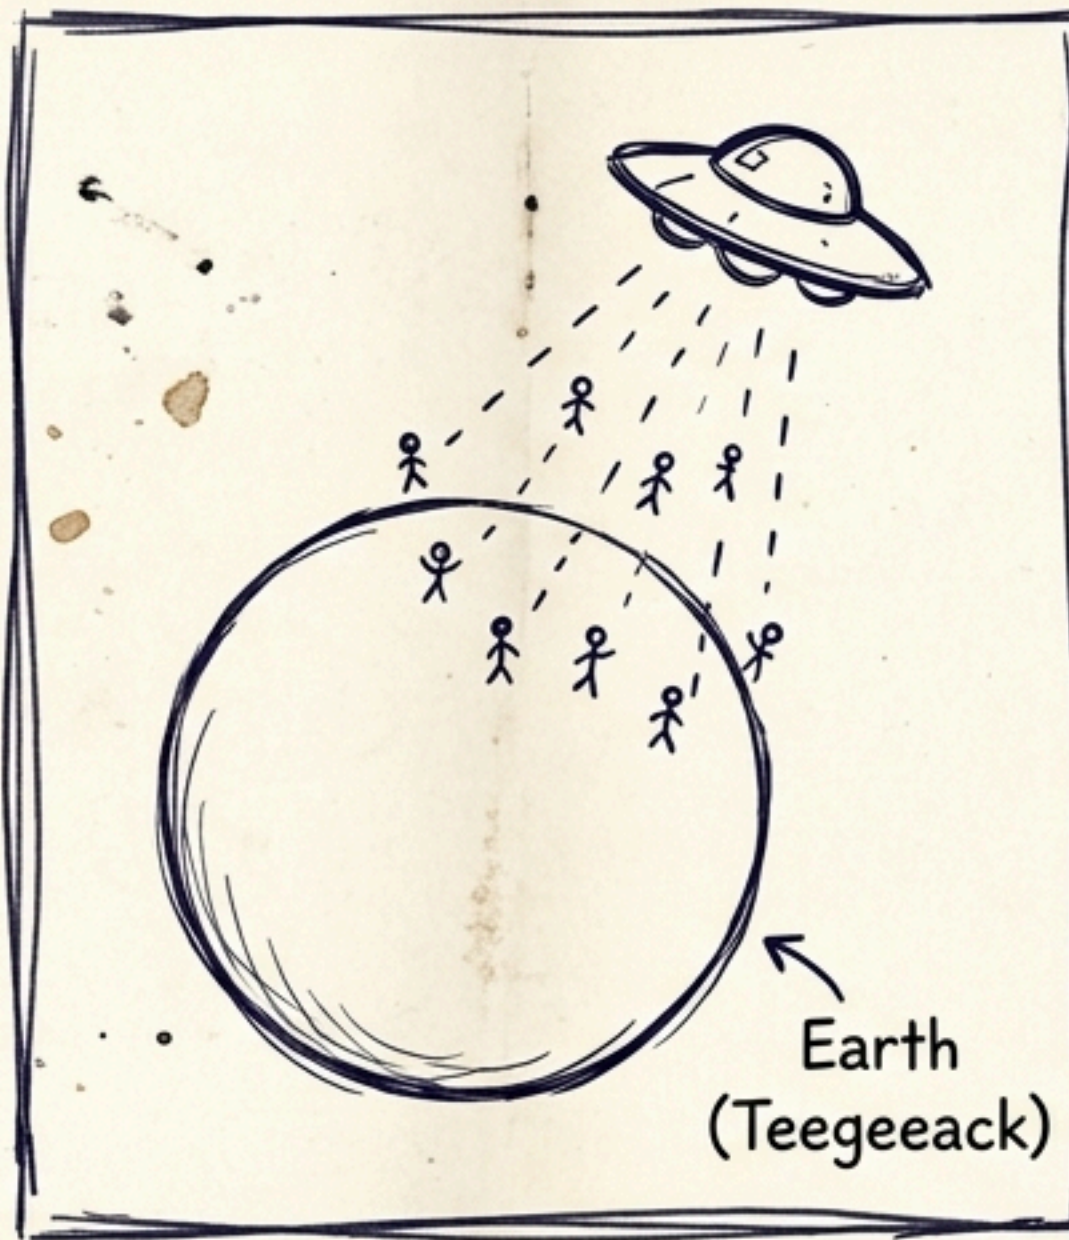

# The Secret Teaching: Xenu

**CONFIDENTIAL - OT III**

Tens of millions of years ago, a galactic ruler named Xenu...

...transported billions of beings to Earth...

...placed them around volcanoes, and killed them with hydrogen bombs.

# The Invisible Baggage (Body Thetans)

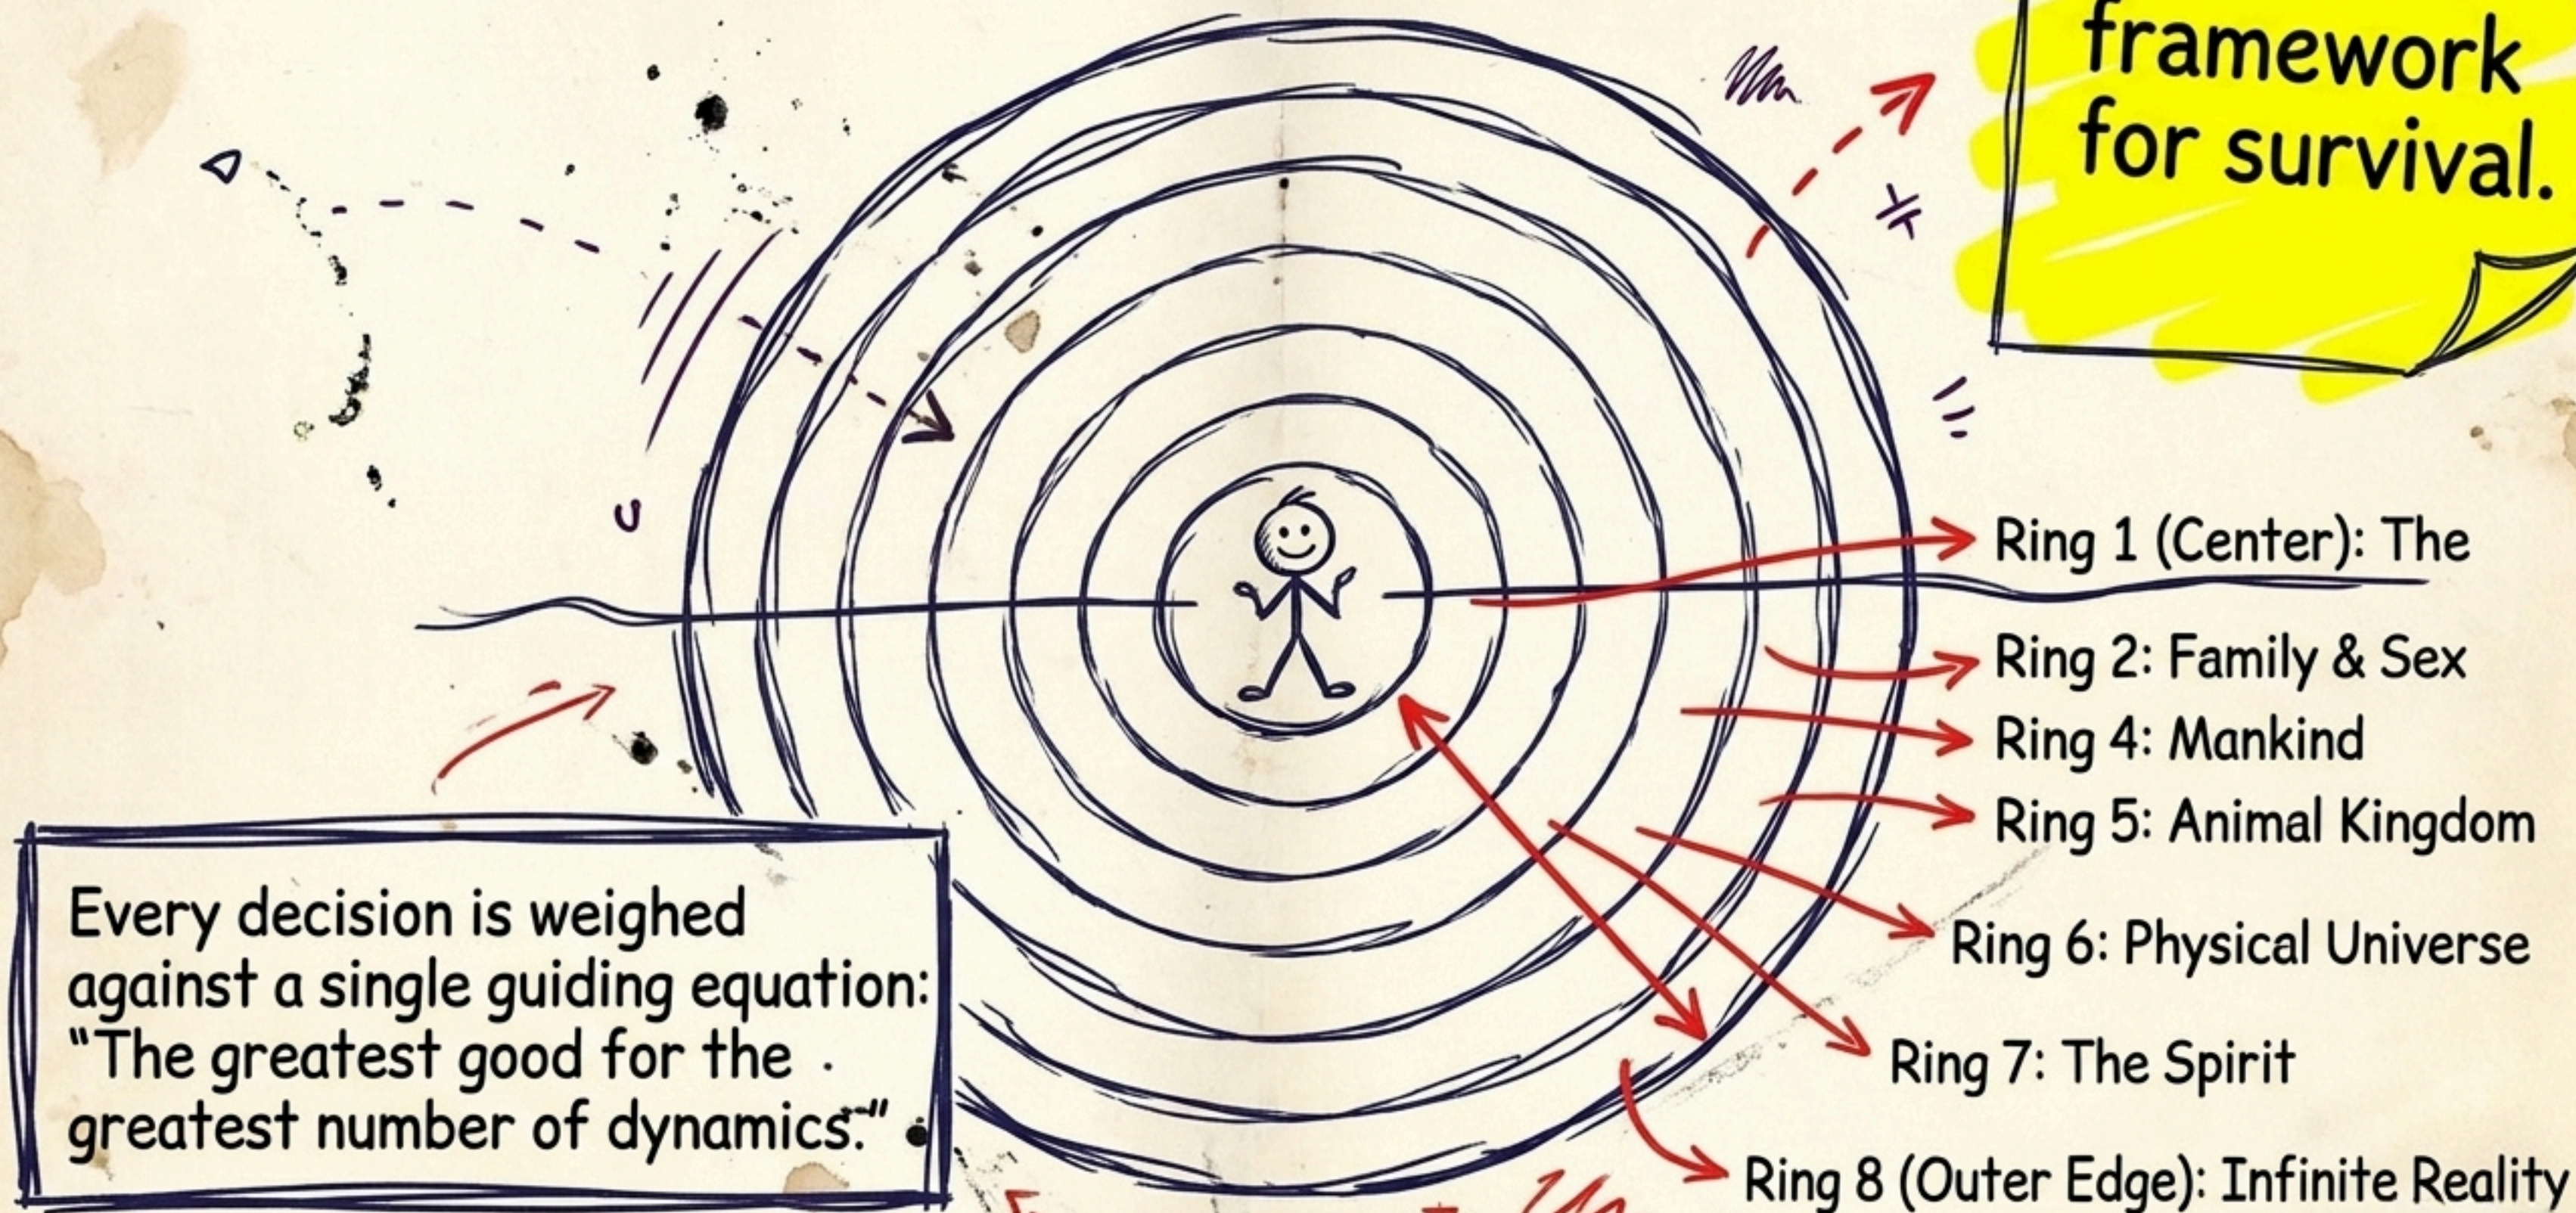

The Reveal: The disembodied spirits of Xenu's victims were brainwashed and forced to attach to surviving bodies.

The New Goal: These Body Thetans are attached to everyone, causing modern psychological and spiritual difficulties. At OT III, the mission changes: you must now audit them away.

# The Operating System: The 8 Dynamics

Hubbard's  
framework  
for survival.

# Putting It All Together

You are an  
immortal spirit  
(Thetan).

Your problems  
stem from  
past-life trauma  
(Engrams)...

You pay to climb  
"The Bridge" via  
Auditing to  
achieve godlike  
control over  
reality.

...and alien spirits  
(Body Thetans).

# Two Perspectives

A genuine religion offering complete spiritual freedom and healing from the trauma of past lives.

A high-control organization centered on absolute secrecy, financial pressure, and systematic control over its members.

**What surprised you most  
about these hidden beliefs?**

**Drop your thoughts  
in the comments!**

**Next up:**
